PARTNERCONNECT EVENTS

WHAT IS PARTNERCONNECT?

PartnerConnect is an “events of events” series which combines several branded conferences under one roof all focused on private markets, where attendees constantly cross-pollinate, as they freely move from one event to the next. Whether you are an LP, GP or service provider focused on buyouts, venture or growth capital you’ll gain more insights and connections at PartnerConnect than any private equity event.

Our Emerging Manager Connect meeting focuses on firms early in their existence, raising institutional capital for funds one, two or three. Born out of our LP’s interests, this category would also include diverse and female operated firms, transition groups

who’ve spun out of larger firms and many funds under \$1 billion in size. By strategy we welcome private markets fund managers of all kinds, including private equity, venture capital, real estate, growth equity, mezzanine debt, and more. In short, we cast a broad net.

In 2017, we introduced our Family Office Connect series that focuses on the ever changing landscape of the role of family offices in private markets investing. As we start to see family offices become more involved in deals directly, we will examine the relationship between family offices, deal makers and of course GP’s including independent sponsors.

PARTNERCONNECT EVENTS

This was my first ExecConnect event and it far exceeded my expectations. The event was extremely well organized. The meetings were of the highest quality and we left with a number of great follow up meetings with high quality LPs. I am extremely happy with the result and I highly encourage others to take advantage of this very efficient process to connect with LPs.

—CODY CHURCH, CO-FOUNDER, TRIWEST

This is a great component of the conference where we find real value and that keeps us interested in partnering. Meetings are usually pretty good and a very efficient way of meeting prospective clients.

—JOANNA WEISS, VICE PRESIDENT OF
MARKETING & INVESTOR RELATIONS, WL ROSS

*Speaking on the ExecConnect program,
exclusively found at PartnerConnect events*

Besides the friendly staff, high quality panels and talks and super relevant attendees, the LP/GP ExecConnect platform is the most amazing thing that I have ever experienced in similar events. It is the true definition of an efficient networking that really differentiates PartnerConnect's events.

—RAMIN BEHZADI, 7 GATE VENTURES
